

# BREATHE PURE AIR

INSIDE BUILDINGS

**PURE AIR**  
CONTROL

## PURE AIR CONTROL SYSTEM

Pure Air Control is an innovative **air purification system** that brings pure, clean air to **building interiors**. By using the extraction system of the building itself, the purified air is exhaled from the building to thus convert buildings into a **lung for the city** or urban center.

- Spaces **free of environmental ozone**.
- **Eliminates 99.995%** of harmful **contaminating particulate**.
- **Reduces toxic, irritant and carcinogenic gases to comfortable levels**.

The PURE AIR CONTROL system has been designed to meet air purification needs in **domestic, service and industrial spaces**. The compact Pure Air Control purification device can be adapted to suit new constructions, renovations and prefabricated buildings.

It includes **3 FILTERING STAGES**:
